Additional information

Rates are only secured once a full application and any applicable fee(s) have been received.

Your client can make lump sum or regular overpayments of up to 10% of the initial mortgage balance in each 12 month period from the anniversary of completion, without having to pay any early repayment charges. This isn't available if the whole loan is being repaid or security released.

Switch to Fix option allows a customer to switch to an existing customer fixed rate, within the same product range, at any time during the benefit period without incurring early repayment charges.

Interest Cover Ratios (ICR) and Stress Rates

To reflect the different taxable income levels of landlords, we apply the following Interest Cover Ratios (ICR) and Stress Rates:

ICR								
Buy to Let ar	nd Let to Buy	НМО	Limited Company					
Tax rate of 20% or less	Tax rate of 40% or more	TIMO	Buy to Let					
125%	160%	175%	125%					

		Fixed for 1		
Application type	Tracker & Variable	Purchase, Remortgage (with capital raising)	Like for Like Remortgage (excluding Let To Buy)	Fixed for 5 or 10 years
Stress rate	Higher of pay	rate +2.0% or 5.50%	Higher of p	bay rate or 4.50%

When calculating the maximum borrowing, this will include any product fees you want to add to the loan. If the product fee is being added to the loan, this can exceed the maximum LTV. But it can't exceed the maximum loan amount.

For further advances individual loan elements will be stressed separately in line with the above. However, the stress rate applied to existing lending will also be set to a minimum of the stress rate applicable to the new borrowing. Please download our <u>further</u> advance calculator for support calculating potential further borrowing.

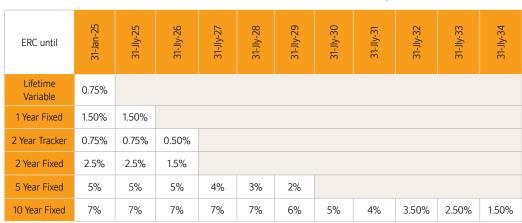

For portfolio landlord applications, an aggregate rental calculation applies (please refer to the lending criteria section of the TMW website for details).

This guide is to be read in conjunction with the Lending Criteria Telephone: 0345 600 31 31
